

CONTEMPORARY

MODERN ARCHITECTURE IN PALM BEACH

JANUARY 28 , 2015 - FEBRUARY 27, 2015

Preservation Foundation of Palm Beach

Contemporary Modern Architecture in Palm Beach

In recent years Palm Beach has seen an increase in the number of building projects in the modern or contemporary architectural style. This exhibit attempts to highlight examples of these recent designs, both approved and denied by the Town of Palm Beach. It offers a chance to see the latest work in these styles grouped together. It also offers a chance to see what questions these works pose about the future architectural direction of Palm Beach.

The Preservation Foundation of Palm Beach is a private, non-profit, 1500 member organization dedicated to the preservation of the historic, architectural and cultural heritage of Palm Beach, Florida. Over 35 years, the Preservation Foundation has created a community-wide perspective seeing the unique buildings of Palm Beach as integral to the town's character as well as its future. As the town community and its needs have evolved, so has the Foundation in complimentary fashion, finding itself now equally concerned with the old and the new.

Lagomar Road House
